

Blue Jacket is a fully-licensed Ohio creamery that transforms high quality milk into fresh (non-aged) and aged cheese. Blue Jacket is a family-owned and operated business and the whole family is involved in the operation according to availability, age and ability.* Using fresh wholesome milk, small-scale equipment, and attention to detail, the Kings and their outstanding employees consistently create great-tasting, high quality artisan cheeses. Their signature cheese is halloumi style Gretna Grilling. Other cheeses include feta, curds, quark, and cheddar curds.

By literally marrying their backgrounds, [Jim's](#) love of farming with [Angel's](#) culinary skills, the Kings are continuing to build on the foundation laid for them by past generations. And by extending their family farm operation to include cheese production, they took a major step toward sustaining Ohio's agricultural economy and promoting farming as a way of life for future generations.

Blue Jacket Dairy, named after nearby Blue Jacket**Creek. west of Bellefontaine, Ohio. Bellefontaine is in ski-country near the site of Campbell Hill the highest elevation in Ohio. In Logan County, the air is fresh and clean, the people are friendly and it is a great place to farm and to raise a family.
